

Public Law 98-553
98th Congress

An Act

To authorize appropriations to the Nuclear Regulatory Commission in accordance with section 261 of the Atomic Energy Act of 1954, and section 305 of the Energy Reorganization Act of 1974.

Oct. 30, 1984
[S. 1291]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—AUTHORIZATION OF APPROPRIATIONS FOR
FISCAL YEARS 1984 AND 1985

SEC. 101. There are hereby authorized to be appropriated to the Nuclear Regulatory Commission in accordance with the provisions of section 261 of the Atomic Energy Act of 1954 and section 305 of the Energy Reorganization Act of 1974, for the fiscal years 1984 and 1985 to remain available until expended, \$466,800,000 for fiscal year 1984 and \$460,000,000 for fiscal year 1985.

42 USC 2017.
42 USC 5875.

SEC. 102. (a) The sums authorized to be appropriated in this Act for fiscal years 1984 and 1985 shall be allocated as follows:

(1) not more than \$91,490,000 for fiscal year 1984 and \$87,140,000 for fiscal year 1985, may be used for "Nuclear Reactor Regulation", of which an amount not to exceed \$1,000,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor preapplication review;

(2) not more than \$70,910,000 for fiscal year 1984 and \$74,770,000 for fiscal year 1985, may be used for "Inspection and Enforcement";

(3) not more than \$36,280,000 for fiscal year 1984 and \$35,710,000 for fiscal year 1985, may be used for "Nuclear Material Safety and Safeguards";

(4) not more than \$199,740,000 for fiscal year 1984 and \$193,290,000 for fiscal year 1985, may be used for "Nuclear Regulatory Research", of which an amount not to exceed \$2,600,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor safety research;

(5) not more than \$27,520,000 for fiscal year 1984 and \$27,470,000 for fiscal year 1985, may be used for "Program Technical Support";

(6) not more than \$40,860,000 for fiscal year 1984 and \$41,620,000 for fiscal year 1985, may be used for "Program Direction and Administration".

(b) The Nuclear Regulatory Commission may use not more than 1 per centum of the amounts authorized to be appropriated under paragraph 102(a)(4) to exercise its authority under section 31 a. of the Atomic Energy of 1954 (42 U.S.C. 2051(a)) to enter into grants and cooperative agreements with universities pursuant to such paragraph. Grants made by the Commission shall be made in accordance

Grants.

with the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.) and other applicable law.

(c) Any amount appropriated for a fiscal year to the Nuclear Regulatory Commission pursuant to any paragraph of subsection 102(a) for purposes of the program referred to in such paragraph, may be reallocated by the Commission for use in a program referred to in any other paragraph of such subsection, or for use in any other activity within a program, except that the amount available from appropriations for such fiscal year for use in any program or specified activity may not, as a result of reallocations made under this subsection, be increased or reduced by more than \$500,000 unless—

(1) a period of thirty calendar days (excluding any day in which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain or an adjournment sine die) passes after the receipt, by the Committee on Energy and Commerce and the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Environment and Public Works of the Senate, of notice submitted by the Commission containing a full and complete statement of the reallocation proposed to be made and the facts and circumstances relied upon in support of such proposed reallocation; or

(2) each such committee, before the expiration of such period, transmits to the Commission a written notification that such committee does not object to such proposed reallocation.

SEC. 103. Moneys received by the Nuclear Regulatory Commission for the cooperative nuclear research program and the material access authorization program may be retained and used for salaries and expenses associated with such programs, notwithstanding the provisions of section 3617 of the Revised Statutes (31 U.S.C. 484), and shall remain available until expended.

SEC. 104. From amounts appropriated to the Nuclear Regulatory Commission pursuant to this title, the Commission may transfer to other agencies of the Federal Government sums for salaries and expenses for the performance by such agencies of activities for which such appropriations of the Commission are made. Any sums so transferred may be merged with the appropriation of the agency to which such sums are transferred.

SEC. 105. Notwithstanding any other provisions of this Act, no authority to make payments under this Act shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 106. (a) No funds authorized to be appropriated under this Act may be used to carry out any policy or program for the decentralization or regionalization of any Nuclear Regulatory Commission authorities regarding commercial nuclear powerplant licensing until sixty legislative days after the date on which the Commission submits to the Congress a report evaluating the effect of such policy or program on nuclear reactor safety: *Provided, however,* That the prohibition contained in this subsection shall not apply to any personnel assigned to the field, or to activities in which they were engaged, on or before September 22, 1983. The report shall include—

(1) a detailed description of the authorities to be transferred, the reason for such transfer, and an assessment of the effect of such transfer on nuclear reactor safety;

31 USC 3302.

Report.
Prohibition.

(2) an analysis of all comments submitted to the Commission regarding the effect on nuclear reactor safety which would result from carrying out the policy or program proposed by the Commission; and

(3) an evaluation of the results, including the advantages and disadvantages, of the pilot program conducted under subsection (b).

(b) Notwithstanding the prohibition contained in subsection (a), the Commission is authorized to conduct a pilot program for the purpose of evaluating the concept of delegating authority to regional offices for issuance of specific types of operating reactor licensing actions and for the purpose of addressing the issues identified in paragraphs (a)(1)–(3) of this section.

SEC. 107. (a) Of the amounts authorized to be appropriated under this Act for the fiscal years 1984 and 1985, such sums as may be necessary are authorized to be used by the Nuclear Regulatory Commission for—

(1) the acquisition (by purchase, lease, or otherwise) and installation of equipment to be used for the small test prototype nuclear data link program or for any other program for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors; and

(2) a full and complete analysis of—

(A) the appropriate role of the Commission during abnormal conditions at a nuclear reactor licensed by the Commission;

(B) the information which should be available to the Commission to enable the Commission to fulfill such role and to carry out other related functions;

(C) various alternative means of assuring that such information is available to the Commission in a timely manner; and

(D) any changes in existing Commission authority necessary to enhance the Commission response to abnormal conditions at a nuclear reactor licensed by the Commission:

Provided, however, That no funds shall be available under this Act for the acquisition and installation of any equipment for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors, or for the analysis of such equipment, unless such acquisition and analysis includes, as one of the alternatives considered, a fully automated electronic nuclear data link. The small test prototype referred to in paragraph (1) may be used by the Commission in carrying out the study and analysis under paragraph (2). Such analysis shall include a cost-benefit analysis of each alternative examined under subparagraph (C).

SEC. 108. Of the amounts authorized to be appropriated under this Act, the Nuclear Regulatory Commission may use such sums as may be necessary, in the absence of a State or local emergency preparedness plan which has been approved by the Federal Emergency Management Agency, to issue an operating license (including a temporary operating license under section 192 of the Atomic Energy Act of 1954, as amended) for a nuclear power reactor, if it determines that there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned.

42 USC 2133.
42 USC 2134.

SEC. 109. Notwithstanding the second sentence of section 103 d. and the second sentence of section 104 d. of the Atomic Energy Act of 1954, as amended, the Nuclear Regulatory Commission is hereby authorized to transfer Facility Operating License numbered R-81 to a United States entity or corporation owned or controlled by a foreign corporation if the Commission—

(1) finds that such transfer would not be inimical to the common defense and security or to the health and safety of the public; and

(2) includes in such license, as transferred, such conditions as the Commission deems necessary to ensure that such foreign corporation cannot direct the actions of the licensee in ways that would be inimical to the common defense and security or the health and safety of the public.

Approved October 30, 1984.

LEGISLATIVE HISTORY—S. 1291 (S. 2846) (H.R. 2510):

HOUSE REPORTS: No. 98-103, Pt. 1 (Comm. on Interior and Insular Affairs) and Pt. 2 (Comm. on Energy and Commerce) both accompanying H.R. 2510.

SENATE REPORTS: No. 98-118 (Comm. on Environment and Public Works).

No. 98-546 (Comm. on Environment and Public Works); No. 98-579 (Comm. on Energy and Natural Resources) both accompanying S. 2846.

CONGRESSIONAL RECORD, Vol. 130 (1984):

Oct. 10, considered and passed Senate.

Oct. 11, considered and passed House.

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS, Vol. 20, No. 44 (1984):

Oct. 30, Presidential statement.
